Date: 30.04.2021

Dear Parents,

We all are witnessing a very difficult time and this pandemic has now reached the near and dear ones.

What will help us overcome this situation is prayers, support and well wishes.

With your cooperation we could complete an online academic year and start with a new one.

Keeping the Learner engaged in meaningful learning is a Herculean task. Teachers have used a variety of ways to do it.

Nothing can substitute the classroom teaching but the efforts to reach every child was strived for.

Keeping in view the guidelines received from the governing bodies the teaching learning activities will continue and we will ensure that the students utilise their time judiciously so that there is no academic loss.

We appreciate your contribution in keeping the spirit of our students high and for providing them with all the support required for their constructive learning.

From tomorrow (01.05.2021) we will take a break from the online teaching learning as students should have their much awaited \*Summer Break\* and will be back on 01.06.2021.

The teachers have set aside some assignments for the summer break which they will share with you all.

Let students relax, rejuvenate and refresh themselves.

Looking forward to having students at the earliest in school.

**Till then : Stay indoors Stay safe and do take very good care of everyone around you.**

**Mrs. Sreedevi S Pillai**  
**Principal**
